

CAREER OBJECTIVE

Final-year Information Technology student interested in junior Python development. Comfortable with Python, Flask, SQL, Git and basic frontend development. Built practical web applications and APIs as academic and internship projects.

CORE SKILLS

Programming: Python, SQL, JavaScript (basic) • **Backend:** Flask, REST API fundamentals • **Database:** MySQL, SQLite • **Web:** HTML, CSS, Bootstrap • **Tools:** Git, GitHub, Postman, VS Code • **Concepts:** OOP, DBMS, basic data structures

INTERNSHIP

Software Engineering Intern | BrightLayer Solutions, Noida May 2026 – Jul 2026

Assisted in maintaining internal web tools, wrote Python scripts for data cleanup, and updated SQL queries. Used Git for version control and participated in weekly code reviews.

SELECTED PROJECTS

Library Management Web App | Python, Flask, SQLite

Created a Flask application for book inventory, member records and issue/return tracking. Added CRUD routes, form validation and SQL-based search.

Student Feedback API | Python, Flask, MySQL

Built a small REST service for submitting and retrieving course feedback. Documented endpoints and tested request/response behavior with Postman.

EDUCATION

B.Tech, Information Technology | 2022 – 2026

Jaypee Institute of Information Technology, Noida — CGPA: 8.2/10

Class XII, CBSE | 2022

Ryan International School, Noida — 88%

CERTIFICATIONS

- Programming for Everybody (Python) — Coursera, 2024
- Flask Web Development Basics — Udemy, 2025
- SQL Fundamentals — HackerRank, 2025

ACHIEVEMENTS

- Runner-up, college coding sprint 2025
- Technical coordinator for department coding club
