PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building Python web applications using Flask, REST APIs, SQLite and SQL. Strong foundation in backend development, data handling with Pandas, HTML/CSS and Git, with project work focused on practical business workflows.

TECHNICAL SKILLS

Programming	Python, SQL, JavaScript (basic)
Backend	Flask, REST APIs, SQLite
Data	Pandas, NumPy
Web	HTML5, CSS3
Tools	Git, GitHub, Postman, VS Code
Concepts	OOP, DBMS, Data Structures, API integration

EXPERIENCE

Python Developer Intern | CodeNest Technologies, Pune | Jan 2026 – Jun 2026

Developed small Flask endpoints, fixed SQL query issues, prepared API test cases and contributed code through Git pull requests. Worked with a mentor on a customer-support ticketing module.

PROJECTS

Expense Tracker REST API | Python, Flask, SQLite, Pandas

Built a REST API for expense creation, updates, filtering and monthly summaries. Designed SQLite tables and wrote SQL queries for category-wise reports; used Pandas for CSV export and basic spending analysis. Tested endpoints with Postman.

Placement Preparation Portal | Python, Flask, HTML, CSS, SQLite

Developed a student portal for tracking applications, interview rounds and preparation tasks. Implemented authentication, CRUD operations, server-side validation and responsive HTML/CSS templates.

Sales Data Cleaner | Python, Pandas, NumPy

Created a Python utility to clean duplicate records, handle missing values and generate summary CSV reports from raw sales files.

EDUCATION

B.Tech, Computer Science and Engineering — Vishwakarma Institute of Technology, Pune

2022 – 2026 | CGPA: 8.7/10

Class XII, CBSE — Delhi Public School, Pune

2022 | 91%

CERTIFICATIONS

- Python for Everybody — Coursera, 2025
- SQL for Data Science — Coursera, 2025
- Git & GitHub Essentials — Simplilearn, 2025

ACHIEVEMENTS

- Finalist, inter-college Python Hackathon 2025
- Solved 180+ programming and SQL practice problems
