OBJECTIVE

Final-year Information Technology student with primary interests in Java application development, C++, Excel and Power BI. Has introductory Python exposure from coursework and one small automation project. Looking for an entry-level software development opportunity.

EDUCATION

B.Tech, Information Technology — Amity University, Lucknow (2022 – 2026)

CGPA: 7.6/10

Class XII, ISC — City Montessori School, Lucknow (2022)

82%

TECHNICAL PROFILE

Programming	Java, C++, Python (basic)
Web	HTML, CSS, JavaScript
Analytics	Power BI, Microsoft Excel
Database	MySQL, SQL basics
Tools	Git, GitHub, VS Code
Concepts	OOP, DSA, DBMS

EXPERIENCE

Software Development Trainee | TechOrbit Services, Lucknow | Jul 2026 – Aug 2026

Assisted with Java bug fixes, SQL data checks and documentation for an internal application. Exposure to Python was limited to a small file-automation task.

PROJECTS

Inventory Management System | Java, MySQL

Developed a desktop-oriented inventory application with product records, stock updates and basic reporting. Used MySQL for persistent storage.

College Placement Dashboard | Power BI, Excel

Prepared an Excel dataset and created Power BI visuals for placement statistics by department, company and graduating year.

File Renaming Utility | Python

Wrote a basic Python script using standard library modules to rename files according to a selected naming pattern.

CERTIFICATIONS

- Java Foundations — Oracle Academy, 2025
- Power BI Fundamentals — Microsoft Learn, 2025
- Python Basics — Kaggle Learn, 2025

ACHIEVEMENTS

- Participated in university Java coding contest 2025
