PROFILE

Computer Science engineering graduate with a broad programming background in Java and JavaScript and working knowledge of Python and SQL. Familiar with Flask fundamentals and interested in transitioning into backend development with Python.

EDUCATION

B.E., Computer Science and Engineering

JECRC University, Jaipur | 2022 – 2026 | CGPA: 8.0/10

Class XII, RBSE

St. Xavier's School, Jaipur | 2022 | 86%

PROJECT EXPERIENCE

Online Bookstore | Java, MySQL, HTML, CSS

Developed a Java-based web application for browsing books, user registration and order management. Designed relational tables and wrote SQL queries for search and reporting.

Python Student Result Analyzer | Python, SQL

Wrote a Python utility to import student marks, calculate grades and store summary records in MySQL. Added simple CSV reporting and input validation.

Campus Events Portal | JavaScript, HTML, CSS

Built a frontend portal for listing college events and filtering events by category and date.

TECHNICAL TOOLKIT

Programming — Java, JavaScript, Python, C

Database — SQL, MySQL

Web — HTML, CSS, React basics

Python Web — Flask basics, REST concepts

Tools — Git, GitHub, IntelliJ IDEA, VS Code

Concepts — OOP, DBMS, DSA, SDLC

INTERNSHIP

Software Trainee Intern | DevBridge Systems, Jaipur | Jun 2026 – Aug 2026

Worked mainly on Java maintenance tasks and SQL data fixes. Also created a few Python scripts for file processing and learned Flask routing through an internal training assignment.

CERTIFICATIONS & ACHIEVEMENTS

- Java Programming — NPTEL, 2025
- Python Basics — HackerRank, 2025
- SQL (Intermediate) — HackerRank, 2025
- Top 10 team, university project showcase 2026
